

Helios Rising LLP

WHY ONLY HELIOS RISING FOR SOLAR ENERGY SOLUTIONS

- **SINGLE WINDOW SOLUTION**

CSTEP Bangalore, IB Solar Noida, MNRE Delhi, Neda Lucknow, Tata Solar as resources, technology and manufacturing partners, we provide customized end to end solutions at minimal cost

- **RAPID EXPANSION**

With its unique integrated solar solutions, Helios Rising has captured markets in Delhi NCR, Haryana, Uttarakhand, Uttar Pradesh and Bihar in last six months.

- **COST**

The cost of our proposals are very competitive & are based on our designed solutions. We follow the benchmark costs mentioned by the nodal government agencies of Uttar Pradesh and Central Government.

- **PROJECTS IN PIPELINE**

Solar plant in Unnao for solar power & agriculture.

Residential Colony in Meerut for 250 x 5kW solar plants

Multiple Solar Streetlight Projects in western & central UP

Solar Housing projects in Haryana, Western UP

Industrial Solar Solutions in Noida & G Noida

- **QUALITY**

We strive to give the best quality solar solutions. All our components have approval seal of the nodal government approval agencies.

OUR RANGE

SOLAR STREET LIGHT

Stand alone street-light systems for Colonies, Societies, rural villages

LARGE SOLAR POWER HUB

Solar Power hubs for all utilities useful for Realtors, Colonizers, Builders, Real estate developers Etc.

HOUSEHOLD SOLAR SYSTEM

Complete package for household solar system for all use

HELIOS SOLAR SOLUTIONS - PETROL PUMPS

- Petroleum Companies offer up to 65% subsidy to Petrol Pump Owners for erecting solar plants at their pump
- Unlike government subsidy, the subsidy offered by these companies also cover battery back up plants.
- The savings pay for the investment in less than 2 years and then the power is free for next 25 years.
- Please check with your petroleum company for subsidy details.
- Helios Rising Solar Solutions provides end to end services – procurement, Installation & commissioning, operation & maintenance, insurance and automated cleaning solutions.

HELIOS SOLAR SOLUTIONS

- RESIDENTIAL

- Get a solar plant of the size of your sanctioned load and run your AC, Microwave, TV, Computers, Washing Machine, Fridge and even your electric car.
- No subsidy on solar plants with battery backup
- Net meter allows you to put your daytime solar electricity in the power company grid and use it in the night.
- The savings pay for the investment in less than 4 years and then the power is free for next 25 years.
- The return on your investment (ROI) is almost 25% per annum for 25 years.
- Get number of Freebies from Helios Consult as incentive to go Solar
- Helios Rising Solar Solutions provides end to end services – procurement, Installation & commissioning, operation & maintenance, insurance and automated cleaning solutions.

HELIOS SOLAR SOLUTIONS

- INDUSTRY

- Get a solar plant of the size of your sanctioned load and run plant on solar energy.
- No subsidy on solar plants for commercial use.
- Accelerated depreciation benefits under IT Act
- Some states have cancelled VAT on Solar Power Plant
- Reduced carbon emission is an advantage over competitors in the eyes of discerning & educated customers. Reduce Operating cost and Save Maintenance Cost
- Plant can be connected to the LT side or through a smart controller to diesel generator which either reduces the total import of electricity or reduces consumption of diesel or both
- Net meter allows you to put your daytime solar electricity in the power company grid and use it in the night. Sell extra electricity to the grid.
- The savings pay for the investment in less than 4 years and then the power is free for next 25 years. Saves on electricity bill and the diesel expense. Buying and installing solar systems is like prepaying 25 to 35 years' energy bills.
- The return on your investment (ROI) is almost 20% per annum for 25 years.
- No more, heavy peak hour DISCOM charges for heavy power consumers.
- Helios Rising Solar Solutions provides end to end services – procurement, Installation & commissioning, operation & maintenance, insurance and automated cleaning solutions.

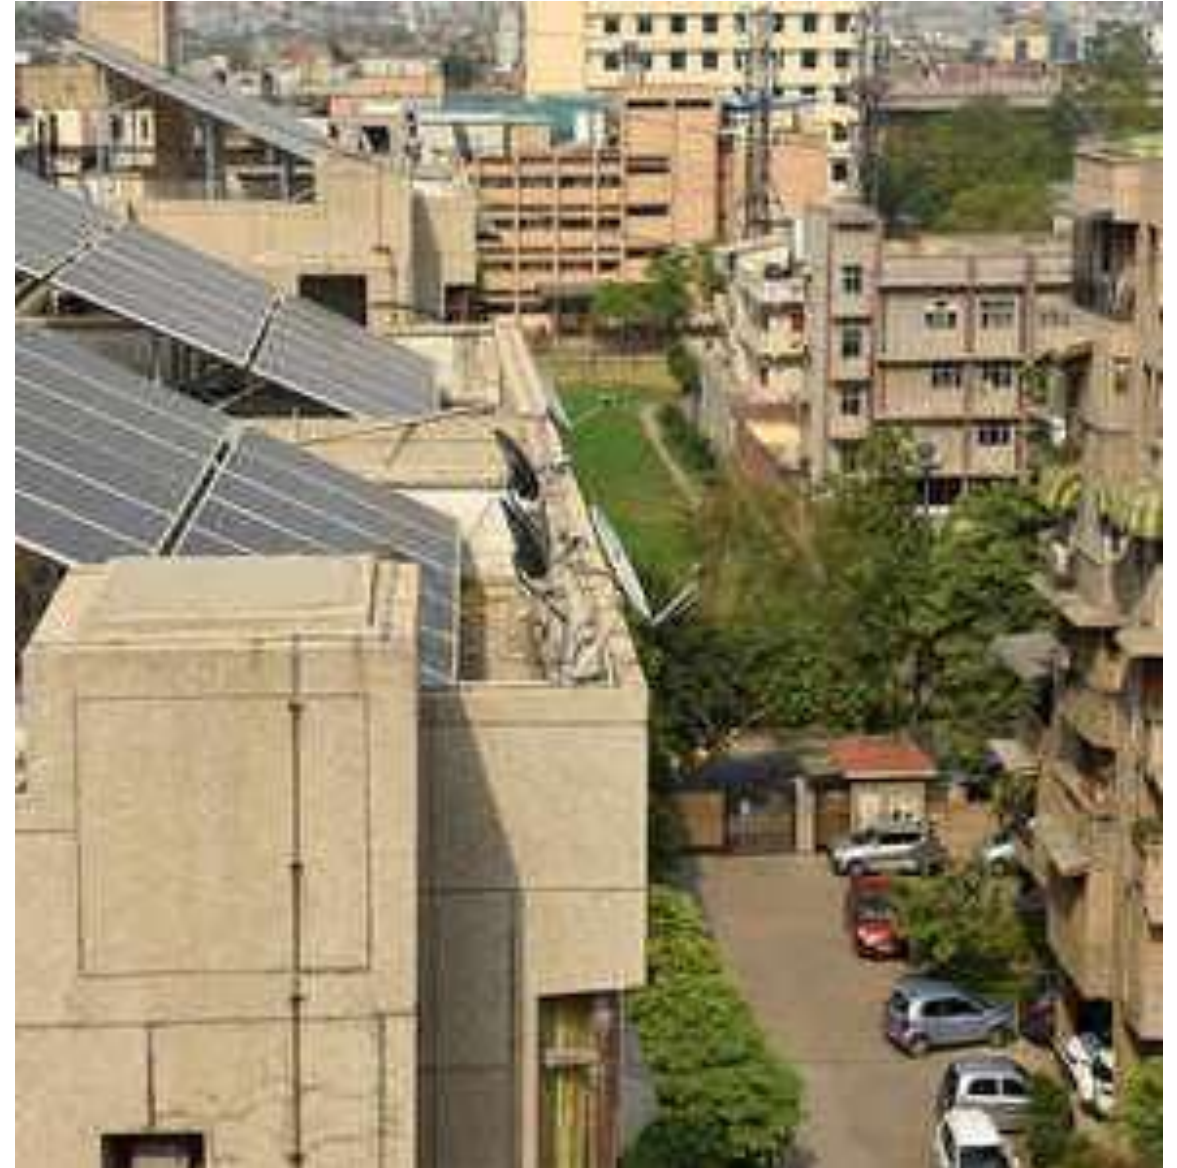

SOLAR SOLUTIONS – COMMERCIAL

- Get a solar plant of the size of your sanctioned load and run your motors, offset press, hydraulic pumps, garages, lifts, offices equipment for conceivable commercial use.
- No subsidy on solar plants for commercial purposes.
- Reduces Operating cost, Raises bottom line & saves 75% on power bill
- Makes customers happy as it reduces carbon footprint
- Net meter allows you to put your daytime solar electricity in the power company grid and use it in the night.
- The savings pay for the investment in less than 4 years and then the power is free for next 25 years. Very low maintenance cost
- The return on your investment (ROI) is almost 25% per annum for 25 years.
- Accelerated depreciation benefits in IT Act. Some states have cancelled VAT on Solar Power Plant
- Helios Rising Solar Solutions provides end to end services – procurement, Installation & commissioning, operation & maintenance, insurance and automated cleaning solutions.

- Accelerated depreciation benefits in IT Act. Some states have cancelled VAT on Solar Power Plant. Great Incentives by Governments to encourage Solar energy.
- Net meter allows you to put your daytime solar electricity in the power company grid and use it in the night.
- The savings pay for the investment in less than 4 years and then the power is free for next 25 years.
- The return on your investment (ROI) is almost 25% per annum for 25 years.
- Helios Rising Solar Solutions provides end to end services – procurement, Installation & commissioning, operation & maintenance, insurance and automated cleaning solutions.

HELIOS SOLAR SOLUTIONS - HOSPITALS

OUR CORE COMPETENCE

FULL PRODUCT RANGE

Entire range of solar products and solar power plants for all needs of Individual & Commercial, Industrial, Housing sector

CUSTOMIZATION

Tailor made customization for client's special requirements, space available & physical and climatic conditions

CUTTING EDGE TECHNOLOGY

R&D in emerging solar technologies has made us pioneer in Energy Efficient Lighting Systems for LED

TEAM

JITENDRA VARMA
DESIGNATED PARTNER
FOUNDER

Founder Advisor Jitendra provides the vision and handles the operations and expansion of the company

DHIRENDRA VERMA
DESIGNATED PARTNER
TECHNOLOGY HEAD

An alumni of IIT Roorkee, Dharendra is the technical brain behind the enterprise.

TEAM

DEVVRAT SINGH YADAV
TECHNICAL HEAD

Devvrat is a solar technology expert providing Helios a distinct edge over the competition. He is visiting professor to several Tech. colleges.

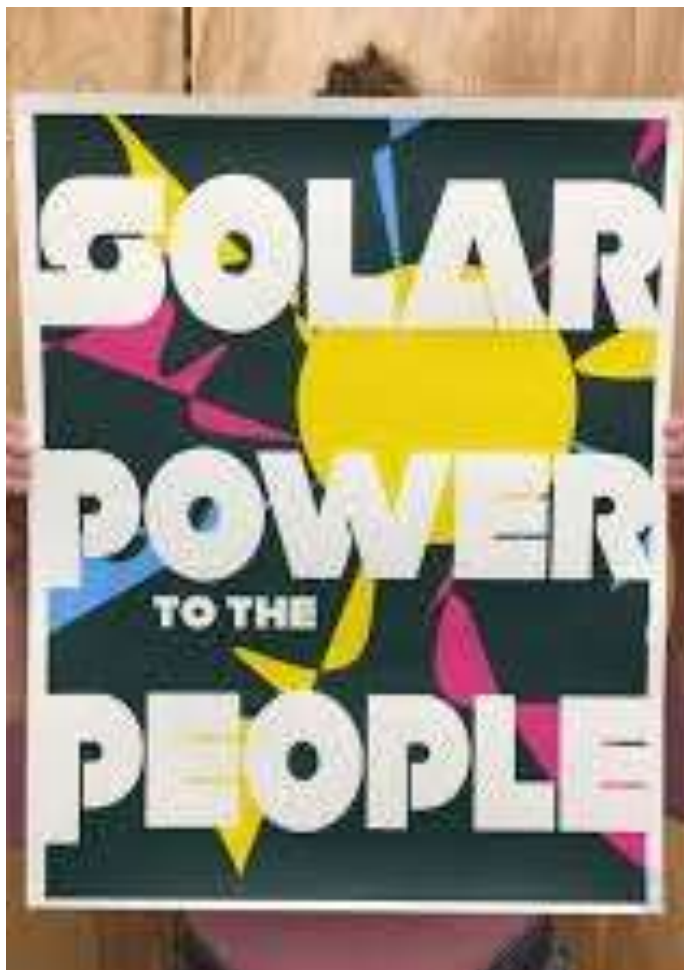

NISHEETH CHATURVEDI
DIRECTOR SALES

Founder Director with an MBA in marketing, Nisheeth has given wonderful results in selling new technologies to satisfied customers

PRAMOD MISHRA
ADVISOR DISTRIBUTION CHANNEL

Consultant to Helios Consult for identification and appointment of District and Block Level Business Associates. A Engineering Graduate, he is a marketing wizard.
